TURN RESEARCH INTO RESULTS

How your users research is just as important as what they research. While other eBook platforms direct users to title-level results, *Gale eBooks* is designed to cross search all of your eBooks to pinpoint relevant material. The result? They spend less time looking for credible information, and more time diving into it.

Offer your users an award-winning, hassle-free eBook experience —anytime, anywhere, and on any device.

ELIMINATE CHECKOUTS OR HOLDS
Allow unlimited simultaneous access with the purchase of just one copy.

OPTIMIZE SEARCH RESULTS
Content is highly findable via detailed indexing, discovery services, MARC records, and through Gale's *InterLink* technology—which connects *Gale OneFile* periodicals to eBook content. Researchers can also find content based on reading level and target audience.

EASILY SHARE BOOKMARKS
With *Gale eBooks*, bookmarked links never change and are sharable to non-users. Easily embed content on your website or in printed materials.

CUSTOMIZE YOUR COLLECTION
Gale Admin users have the ability to organize titles within a subject area so the most relevant titles are displayed first. Create custom collections or groupings of titles that align with goals and initiatives.
